STRICTLY WHOLESALE

JUNE 1926

This list supersedes all previous lists.

In this list we are offering only a few items which we grow in large quantities. Our regular list will be mailed in September.

All offers are subject to prior sale, shortage or failure of crops, or other causes beyond our control. We give no warranty, express or implied, and will not be in any way responsible for the results of planting or forcing of any plants, roots or shrubs sent out.

While we take great care in not booking more orders than our stock warrants, we reserve the right to pro-rate all orders if at the time of digging we find shortages do exist.

Buxus sempervirens, the true hardy variety.

We grow Boxwood in very large quantities and can take orders of any size; we ship the smaller plants without soil, the roots packed in damp moss.
